- Vlasec 4 m – ø 0,25mm
- Ketlovací jehly 9 ks – délka 22mm
- Záponka a protikroužek

Pomůcky:

- Nůžky
- Ketlovací kleště
- Rokajlová jehla

Postup:

Náhrdelník je sestaven z jednotlivých částí, které si ušijeme zvlášť:

- 1x spojovací kroužek (SK)
- 2x velký kosodélník (VK)
- 5x střední kosodélník (SK)
- 2x malý kosodélník (MK)
- ketlované kuličky (KK)

Krok 1

Prepare a needle with the nylon line 35cm /13,8in long. String 12 Infinity beads and tie them together with a double knot to create a circle. Make sure you will leave a 10cm/4in loose end of the nylon line (on the end without needle). Draw the needle through the loose/upper hole of the nearest Infinity bead.

Step 2

Now we will be working with the loose/upper holes of Infinity beads. Draw the needle with the nylon through the Infinity beads one by one and always string 1 seed bead or Infinity beady in between in a following sequence:

2x seed bead – 1x Infinity bead – 3x seed bead – 1x Infinity bead – 3x seed bead – 1x Infinity bead – 1x seed bead

(Picture #2)

When finished, thread the needle on the other end of the nylon line and pass the needle in the opposite direction through all the beads in circle until you reach the other end of the nylon line.

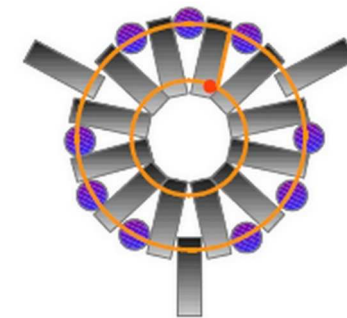

(Picture #3)

Tie both ends together with a double knot. Fasten off the nylon line on both ends. Pass the nylon line through the few nearest beads and cut off.

Step 3

Now we will make 2 small diamonds, each out of 9 Infinity beads.

Prepare a needle with 30cm/11,9in long nylon line and string 3 Infinity beads – I-1, I-2, I-3. Arrange the Infinity beads as follows:

I-1 loose hole down, I-2 loose hole up, I-3 loose hole down

(Picture #4)

Leave 10cm/4in loose end of the nylon line.

Step 4

One by one add the other Infinity beads in between the strung ones as follows:

String I-4 and pass through the lower hole of I-3. String I-5 and pass through the lower hole of I-1.

String I-6 and pass through the lower hole of the same back. String I-7 and pass through the lower hole of I-5.

String I-8 and pass through the lower hole of I-4. Pass through the lower hole of I-8, add I-9 and pass through the lower hole of I-7.

(Picture #5)

Step 5

Draw the nylon line back in the previous line through two Infinity beads (I-6 lower hole and I-7 upper hole).

Thread the needle on the other end of the nylon line and draw the needle through the following 2 lines (I-6 UH, I-1 LH, I-5 UH, I-3 LH, I-4 UH, I-4 LH, I-8 UH, I-5 LH) until both end of the nylon line will meet at the same spot.

(Picture #6)

Tie both ends of the nylon line with a double knot. Pass each end through beads in opposite directions and cut the nylon off.

Repeat Step 3 to 5 and make another small diamond.

Step 6

Make the middle-sized and large diamonds the same way as the small ones.

Middle-sized diamond (Picture #7)

For each middle-sized diamond you will need 40cm/15,8in of nylon line and 16 pcs of Infinity beads. Follow the instructions for the small diamond (Step 3 to 5) and Picture #7. Make 5 middle-sized diamonds.

Large diamond (Picture #8)

For each large diamond you will need 50cm/19,7in of nylon line and 25 pcs of Infinity beads. Follow the instructions for the small diamond (Step 3 to 5) and Picture #8. Make 2 large diamonds.

Step 7

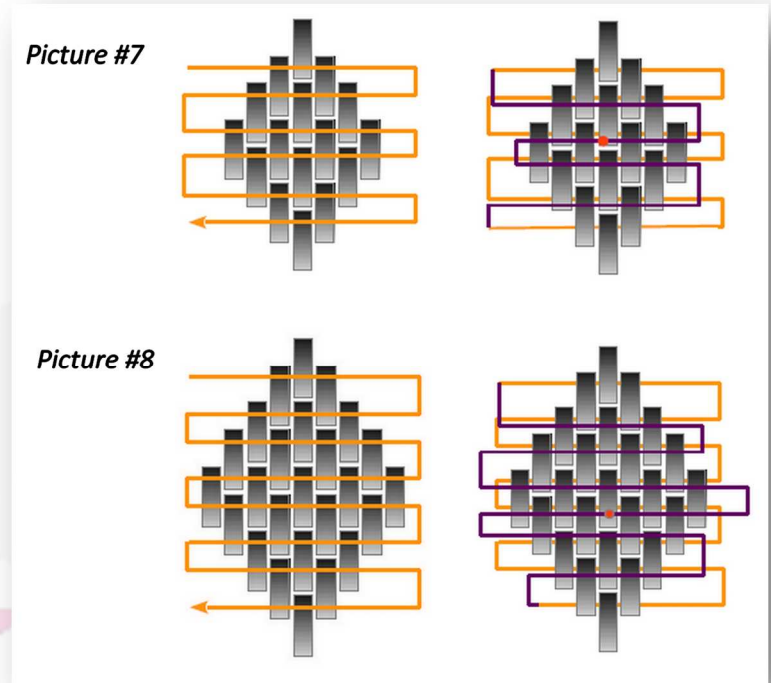

On an eye pin place 1 seed bead + 8mm druk + 1 seed bead and close with a round loop. (Picture #9) Make 8 individual pieces.

Step 8

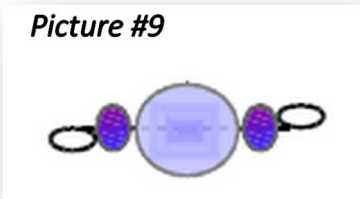

Now we are ready to link all fragments together using the jump rings. Link them in following order:

SMALL DIAMOND + LINKED DRUK + MIDDLE-SIZED DIAMOND + DRUK + MIDDLE-SIZED DIAMOND + DRUK + LARGE DIAMOND + DRUK (Picture #10)

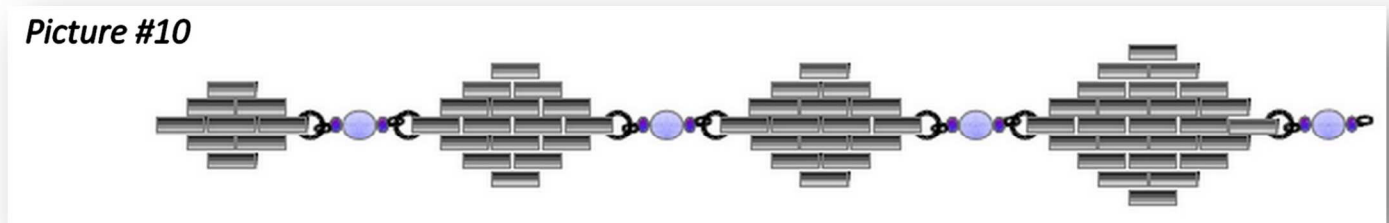

Make another part the same way.

Step 9

With the help of the jump rings attach both parts from previous step to the sticking out Infinity beads on the middle circle. Hang linked druk bead and last middle-sized diamond on the third Infinity bead.

(Picture #11)

Step 10

Add jump rings to both ends of the necklace and attach a lobster clasp and a double ring.

Step 11

Well done! Enjoy your new necklace!
